The Better Way Foundation
HIV AIDS Non Profit Organization

The Better Way Foundation was founded in 2007 by Jeremy Hobbs, a HIV patient who had seen the support inadequacies for those living with HIV & AIDS, the stigma patients face daily with their families, work, & community and the alarming rising infection rates here in the South.

Our goals include providing free of charge to those living with HIV & AIDS the support, medical awareness, stress & anxiety classes, nutrition, & exercise education to help those with HIV & AIDS live longer, healthier lives.

We are also working with our community & schools to promote quality, evidenced based prevention education & promote the importance of Status Knowledge to help lower infection rates & and work to stamp out life threatening ignorance portrayed by families & friends of patients by providing educational training & support.

Did You Know...

- Of the top 20 areas with the highest AIDS cases rate in 2006, 55% were in the South.
- In 2006, of the 20 metropolitan areas with the highest AIDS cases rate, 80% were in the South.
- The South has the highest number of people living with & dieing from AIDS in the U.S. than any other region in the country.
- The South has the highest number of adults & adolescents living with AIDS in the U.S.
- Muscogee County currently has over 1600 HIV cases.
